

harmon.ie Suite

Unify SharePoint, Microsoft Teams, OneDrive, and Outlook for Comprehensive Email and Document Management.

FEATURES

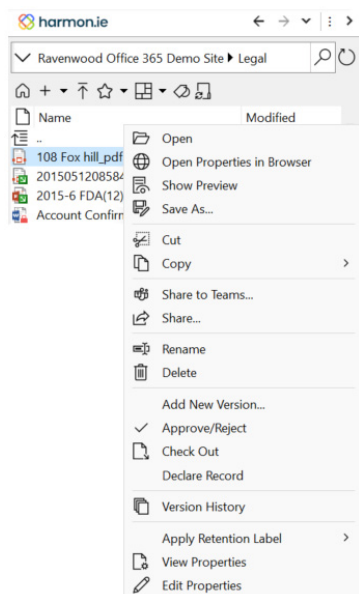

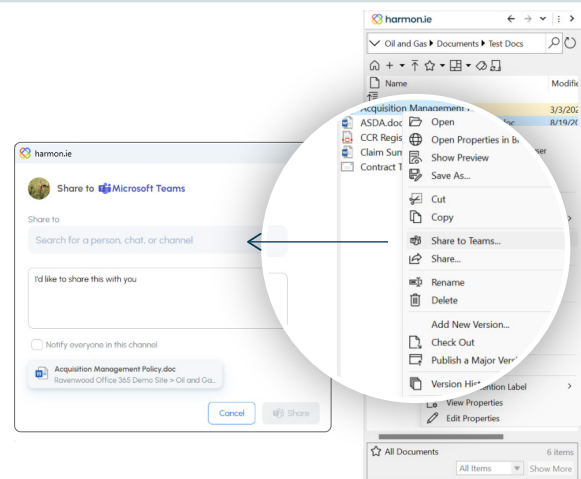

1 Capture & Classify

Easily upload documents, email attachments, and messages to SharePoint, OneDrive, or Microsoft Teams directly from Outlook. Advanced M365 integration enables accurate classification and metadata management for emails and documents.

2 Enhanced Sharing with Teams

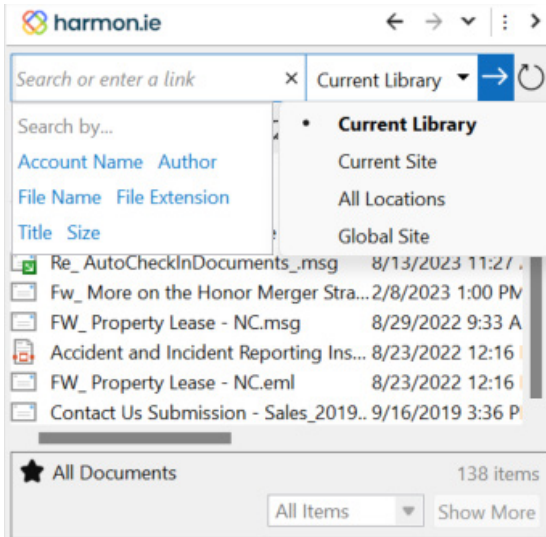

Share emails and attachments directly to specific Teams chats or channels. File emails and attachments in Teams and also, get prompted to share to Teams when uploading, supporting both organization and collaboration.

3 Comprehensive SharePoint Integration

Utilize full-featured SharePoint support within Outlook. This includes uploading emails as documents of record, managing version history, and accessing SharePoint content effortlessly.

FEATURES

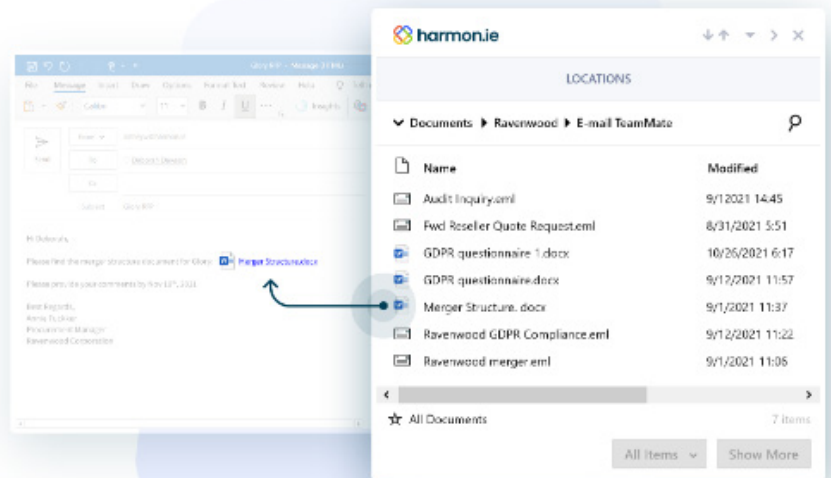

4 Powerful Search and Discovery

Quickly find important emails and documents using harmon.ie's advanced search capabilities. Filter by Microsoft 365 apps, file types, or metadata tags, and utilize favorite locations for streamlined access.

5 Efficient Document Management

Share links to documents stored in SharePoint, OneDrive, or Teams instead of sending attachments. This approach ensures governance, compliance, and eliminates document duplication.

6 Fully Secure w/ Compliance Support

All content stays on your tenant. harmon.ie meets stringent security and compliance standards required in every industry, such as government, with Microsoft 365 GCC High support. Including SOC2 and ISO 27001.

BENEFITS

1

Enhanced Productivity Across Microsoft 365

Access and manage content across SharePoint, Teams, and OneDrive directly within Outlook, reducing the need for multiple apps and improving focus on business tasks..

2

Streamlined Information Management

Capture and classify important documents and emails in SharePoint effortlessly, ensuring easy retrieval for ongoing business operations and compliance needs.

3

Improved Collaboration and Compliance

Share and collaborate on documents securely, maintaining compliance and governance standards. harmon.ie's integration simplifies collaboration while adhering to organizational policies.

4

Confidence in Data Management

With detailed labels for shared emails, users can track where and if an email was shared in Teams or SharePoint, ensuring proper organization and management of communication.
